erotic rush

5 surefire sex tricks to bring the heat to your relationship

Whether you're married or living together, regular fuck buddies or once-a-month lovers, few couples escape sexual dry spells. There's no question that, now and then, every erotic relationship could use some spicing up. That's why we've compiled these bedroom boredom-busters, a virtual pentathlon of sex tricks that's guaranteed to give you an erotic rush.

1. THE LOST WEEKEND

Once a couple passes the "More, more, more" stage at the beginning of their relationship, sex often tends to fall into a predictable pattern, like "it's 10 o'clock, time to fuck!" The ecstasy's over in an hour or less.

With our fast food mentality, sex too often becomes instant excitement followed by instant gratification, leaving little or no time to savor some of the more thrilling but subtle aspects of erotic pleasure.

The only exception is the traditional honeymoon, a week or two of unabashed lust interwoven with other sensual pleasure. Few people today are aware that the honeymoon is just a weak imitation of such robust activities as the French phenomenon of *cabinets particuliers*. These were combination bedroom/dining room facilities where couples disappeared for hours, even days, to feast on exotic foods and satiate themselves with erotic delights.

Our first sure-fire trick, then, is to plan a "lost weekend" for yourselves (actually anything from a day to a week depending on your resources and stamina), devoted exclusively to romance and hot sex. It doesn't have to be an expensive couples-only type of trip to some distant locale. In fact, staying home offers the advantage of not being distracted by tour schedules or dining room hours.

The important thing is that you devote a lot of time and thought to planning your weekend of hedonism, building up your anticipation in the process. Discuss the sensual pleasures that appeal most to both of you, then arrange ways to accomplish them.

"We set up four or five special weekends a year," says Jan. "Me and Larry clear the decks on our calendars so nothing will interfere. Friends and family are told we won't be available and we don't answer the phone for two days.

"We lay in a supply of our favorite foods, pre-cook a lot of them and put them in the freezer so they can just be heated up, like us. I pick up our favorite wines, cheeses and sticky desserts, feeling no guilt at all about the prospects of a total pig fest. Larry usually gets a load of porn flicks ready to stream.

"Most of the time we buy new outfits, as much to satisfy our own fantasies and our partner's. Last month

Larry brought home sexy silk PJs and I showed up in fishnet stockings that drove him out of his mind.

“From Friday until Sunday we spend our time feasting on mouth-watering food (and each other’s body). We shower together and screw in front of windows with the shades up. Larry might splash champagne on his dick and I’ll suck it off with his cum. I might cover my pussy with whipped cream and he’ll lick it away.

“No two wild weekends are the same except that they all share the goal of pleasing our senses and appetites. It may mean anal sex in a bubble bath one night to throbbing rock music; the next could bring filet mignon and tit-fucking to a symphony. We might stay in bed all day to watch videos of pumping hard-ons and women getting fucked. Our only rule is that there are no rules— except to have even more fun fucking than we had the last time!”

2. FORBIDDEN SEXUALITY

No matter how liberated a background we may come from, as children all of us went through some form of sexual repression. Whether you were a boy who was scolded for “playing with yourself” in the bathroom or a girl who experienced guilt when you were masturbating, each of us discovered the fears, as well as joys, of forbidden sexuality.

Sometimes those repressed images evolve into erotic tastes and fetishes. A girl, who harbored fantasies for her friend’s handsome father on reaching womanhood, finds her pussy soaked whenever she sees him. A boy who regularly jerked off over a woman with ass-length hair might easily grow into a dude with a fetish for long hair when he gets older.

Just about all of us harbor sex secrets—unspeakable

wishes and forbidden fantasies that we’ve never forgotten. We might still be slightly ashamed of them or fear that our partner will ridicule their apparent silliness. Yet they represent the most potent sources of sexual excitement... if we just have the courage to reveal them.

Our second sure-fire trick for starting your juices of lust flowing is to confess to each other your most wicked unfulfilled sex fantasies. Then help them come true for one another.

Veronica’s girlhood masturbation had centered on a handsome teacher. She spent hours daydreaming about scenes of herself and the teacher, both stripped naked and taking turns teasing each other.

The prime object of her husband Dan’s boyhood lust had been Cindy, a voluptuous family friend, who visited for a month when he was a teenager and she was in her twenties. Still vivid in his memory are the gleaming stockings and towering spike heels she always wore. He recalls the straining hard-ons he experienced looking at them. What he remembers best is an incident he saw one night through a basement window: his own father being seduced in the TV room by Cindy’s shiny legs.

While he pumped his penis into his fist, Danny watched in awe as Cindy exposed her garters and his dad buried his face in her slippery thighs. When she slipped her high heels off and wriggled her sleek stockinged feet in his face, Danny’s father eagerly smelled them and stuffed the toes into his mouth while he pulled out an enormous erection. He was soon ramming it relentlessly into her pussy until both of them were rolling and writhing through an orgasm. For years afterward, Dan masturbated over what he’d seen and never forgot it.

Neither he nor Veronica had ever revealed the secret facts and fantasies of their childhood to their partners. Dan had playfully teased his wife a few and, whenever she'd worn slick pantyhose and heels, he'd acted especially passionate. Yet both found it difficult to confess their long-held desires.

When they finally did, though, neither of them could have been more understanding and eager to please. Veronica went out and bought her first pair of gartered nylons since high school and the spikiest heels she could find.

"The first night that Dan fulfilled my fantasy was the most sexually stimulating night of my life!" reports Veronica. "My pussy was literally dripping with desire when I saw Dan nude with that feather in his hand. As he swiped it across my bare cheeks, then let me do the same with his, I had to keep remembering it wasn't a dream. I don't know how many times I climaxed during our session, but it seemed like dozens. Then, the next night, it was my turn to fulfill Dan's dream."

"It was even better than my fantasies," says Dan. "Those shoes, those stockings! I kept blowing off loads of cum in my pants as I snapped Veronica's garters, licked her filmy thighs, sucked her high heels and kissed her gorgeous feet. I can't remember ever banging her as hard as I did that night."

3. GOOD VIBRATIONS

Our third sure-fire trick to turn the two of you on comes from the world of electronics. Most couples have owned a single, standard, bullet shaped vibrator or "cordless neck massager," as advertisers like to call it. But that's just a beginning.

Any woman who's used such a dildo knows the very different and exquisite kind of pleasure it yields, whirling against her vagina and clitoris. And any man who's watched or helped a woman reach a vibrator orgasm realizes what an important tool it can be for building desire during foreplay.

The trick is to open up your mind to the stimulating possibilities that lie in the world of assisted arousal. If one vibrator is exciting, imagine using four or five—and finding new places to put them

A woman who applies two vibrators to her sensitive nipples at the same time that others are sending their pulsating sensations through her cunt and up her ass can find the experience almost unbearably delightful. A man with a gyrating dildo plugging his asshole, who then adds the tingle of another vibrator against his rigid cock, can discover a whole new universe of splashing ejaculation.

And, finally, don't overlook the many other products around the house or office which can contribute their own special brands of stimulation.

"The first time Jimmy laid me against the washing machine, it was an accident," says Arlene. "He sneaked up and pulled my pants down for a quickie screw. As I leaned on the jiggling washer while it went through its 'spin' cycle, I found the combination of Jimmy's powerful thrusts and the machine's vibrations absolutely breathtaking!

"We started experimenting and the results have been some of the wildest times we've ever had. A small fish-tank pump not only vibrates at high speed against my pussy, but it also blows a delightful, tickling stream of air into me. I also use a scalp massager, the kind you

strap on the back of your hand, to give Jimmy hand-jobs that make his cum squirt two feet in the air!"

Whether it's with a vacuum cleaner, a food processor, a paint sprayer or an exercise bike, look through your possessions with an erotically creative eye for machines that will give your relationship good vibrations.

4. STRANGERS IN THE NIGHT

Our fourth way to rekindle the flames of desire is to step out of your familiar selves and take on new identities. To give your relationship some spicy variety, try becoming "strangers in the night," new people offering new mysteries and new reactions to each other.

At first that may sound difficult, but you'll find it's really quite easy. Start by play-acting as your own opposites; soon you'll find yourselves slipping comfortably and naturally into new roles.

"Maryanne has always tended to be the more aggressive one in our relationship," says Karl, "while I was usually more passive. When she wanted to fuck, she'd come on strong, parading around nude, grabbing my dick, throwing herself across me and smothering me with kisses.

"One night I went after her," remembers Karl.

"Suddenly we both realized that this was a totally different experience and very exciting. Maryanne started pretending to resist me, crying 'No!' and pulling her dress down. This drove me up the wall with desire because it was like having sex with a different woman.

"Now we try on new personalities all the time. I'll play

a little boy or a macho stud; she'll be a sexy flight attendant or a total stranger. There's no way we can ever be tired of each other again!"

5. 'TAILS' OF THE UNEXPECTED

Our final sure-fire trick for pumping up the passion is one that depends on the element of surprise: think up hot, erotic surprises your partner will enjoy, then spring them when they're least expected.

"Bob and I were shopping one afternoon downtown," recalls Jeanne. "I don't know what got into him, but he had an erection that wouldn't quit. On the spur of the moment, he whisked me into a hotel, rented a room, tossed me on the bed and gave me one of the most fantastic rides of my life. His prick seemed extra-large and he was plunging it into me so hard that the sweat was pouring off his body.

"It had been so sudden I could hardly catch my breath, but that didn't stop me from being incredibly turned on and enjoying his spontaneous fucking to the hilt.

"That night we went to the movies and, right in the middle of the flick, I leaned over in the darkened theater, pulled out his cock and gave him a hard-sucking blowjob while the people around us sat there in total ignorance.

"Ever since those incidents, Bob and I have looked for way to surprise each other with exciting new experiences. It's breathed a whole new spirit of passion into our relationship."

There you have it. Five suggestions on how to rev up the engines of sexual and get out and try them!

Cindy

Cindy's new apartment lease is about to be signed. Her landlord apparently liked what he saw and he made her offer she couldn't refuse. He knew she would accept and soon he would get a taste of that delicious ass! This girl loves anal and she'd soon get rammed like the wild girl, and good tenant, that she was!

Why do our men cheat on us? That's a very difficult question to answer. There could be many reasons, but most probably the number one answer is lack of good sex. No matter how you phrase it, men want sex and, from my experience, they don't care who they have it with as long as they get it. And the one sex act that men like the most is a blow job. There is very little for them to do except sit back and let the woman do all the work. So, I don't believe that the 'other woman' is a better lover than me. I think she's willing to do what his wife probably won't do or has stopped doing.

You can keep your man by just sucking his dick. How much more blunt can I be. No matter how long you've been married or how often you have intercourse, a blow job keeps him satisfied and keeps him home. Think about it: if your husband knows that he's going to get head several times, or even a few times a week, and it's from a ready and willing source, his wife, why would he spend energy to go find it elsewhere when it's right there in front of him. He won't. He'll look forward to it from you. The only thing you have to do is

Ladies, the main cause of infidelity is not paying enough attention to your man. There are ways to keep him faithful from cheating...

keep it fresh. Don't do the same thing every time. Vary the place and duration. Add a new twist every now and then. Make the blow job the total act of sex, then let him relax. I don't believe any man will work at getting sex if it's read-

ily available to him. Remember, the act can be accomplished in less than a half hour, usually less, Now that isn't much time to spend to save your marriage. You spend more time getting your nails done.

But how do you keep it fresh? How can you make it an event he'll look forward to? The simplest answer is to think about it and formulate a plan. You know his schedule. Analyze the best time. After he comes home from work, in the middle of the night, driving across town, in the backyard, in the kitchen, at some public place. The possibilities are endless. But I have found that after a good dinner and you two are sitting back, pop in a porn movie, or a sexy movie if you're not into porn, and be sure he's comfortable.

I'm not a housewife, I'm a working woman and yet I know how important it is to find time for

him, for this. Keep in mind, just as pure entertainment: it doesn't cost anything, it can last from fifteen minutes to hours, you control that. Some times it will lead to intercourse, but most likely, he'll cum and you're done. And above all it's fun.

One of the most important aspects of the blow job is his anticipation. If you're doing it regularly, he'll want it more and more. He'll be hot and ready if he knows he going to get some. He'll rush home from work. He'll keep his body and his privates clean. He'll probably 'reward' you in some manner, with gifts perhaps. But there is one thing you should do for yourself before you start a blow job regiment: decide if your going to spit, swallow or take it on your body. Most guys will want you to swallow and it's really not that bad, but if you're uncomfortable with that, work it out with him. If you're going to be sucking you're husband's cock then surely you should be able to work that out. It makes for a nice, comfortable conclusion to the act that you're both okay with.

Now I'm going to describe a scenario with my husband. Personally, we were on the verge of a divorce and sex had quite a bit to do with it. Without getting into details, the solution we came up with, talking to each other as adults, because that's what we are, was to have more oral sex. For both of us. The biggest reason in our discussion was that it was quick and usually fulfilling. Women can cum several times rather easily. A man, especially if he's older, is usually only good for one climax.

We were also both working people and out time was taken up by work or sleep. We were often too tired for full blown sex sessions, but hand jobs and blow jobs can be done rather easily and/or quickly. Please don't misunderstand, I'm not saying this should replace inter-

course or sex, but if your relationship is falling apart or he's thinking of cheating, this may be the answer.

We had finished Chinese take-out for dinner after another busy day for the both of us. We were three weeks into trying to avoid a separation and it's been getting easier and easier to give my husband oral sex. We've increased the frequency to every other day for him and every few days for me as time allows and the mood hits. We ate in the living room watching the evening news. I took the empty take-out boxes to the kitchen and told him to go freshen up.

When I got back, he was already on the sofa waiting for me. The TV show had changed to something loud and I took the remote and turned it down a little. I didn't mind if he watched TV while I was blowing him. I sat next to him and laid my head on his shoulder with his arm outstretched on the top sofa cushions. This is the perfect position to start with. You can kiss,, you can rub his chest, buttons and zippers are easy to get at, and you're not in the way of the TV.

I started by was just running my hand up and down his leg, not too long, just enough to build anticipation. I'd occasionally touch his cock through his pants until I sensed he was hardening. That's when I knew that his pants had to come off. Men do not like their hard cock confined inside pants, or even underwear. He unzipped his pants, allowing his hard cock to release into my hand.

His eyes closed and I reached down to pull his pants lower. I paused for a moment, I stroked him gently, occasionally squeezing tighter, sometimes faster. Mostly I just worked slowly. Up and down, turning my hand, enjoying the feeling of his hard cock in my hand. I unbuttoned his shirt with my free hand and

found his nipple for a good pinch, I felt him tense slightly at this, another good sign.

I moved my head lower over his lap. I puckered my lips, kissing the head of his cock a few times before licking my lips and engulfing it. I rolled my tongue around the head for several minutes, releasing my lips and then resucking with them. I then started licking up and down the underside of his cock, looking up at him. When I sensed the right moment, I got up, stood in front of him and stripped myself naked as he watched. Of course my pussy was wet and I stuck a finger in and brought it up to my mouth and licked it. I bent down and finished pulling his pants off and then dropped to my knees and crawled the few feet to his manhood. Nothing in the world gets a man more excited than a woman inching her way to his cock and balls on her knees. Nothing!

I let my breasts brush against his thighs as I crawl closer, outstretching my arms ahead of me and rubbing his thighs and then his hips. Sometimes I'll make eye contact, sometimes I'll look intently at his cock and balls. I reach his privates and pull the head of his cock into my mouth without using my hands. I licked around the head, flicking my tongue across the underside a few times. With my hand I held his balls carefully, and with the other I reach up and caress his chest, pinching his nipples now and then.

I start to suck him even harder, pulling his cock deeper into my throat. I sucked, allowing my throat to do some of the hard work, swallowing a little sometimes so my throat would massage his cock as well as my tongue. As you do more of this, you'll teach yourself new tricks to cock-sucking. Don't be afraid to try anything. He'll never say no. We all know that men are visual sexual animals, Let him see you doing it. Keep your hair back. Look at him. Let him see your tongue at work.

My lips pressed against the underside of his

cock, looking up at him. I licked around the head of his cock. I started to suck again, working him into my throat, my head bobbing up and down as he touched against the back of my throat. I didn't pause. I just kept sucking and enjoying the feeling of working him up. He was getting close. I wanted him to come now. I had been teasing him for almost an hour. I kept stroking his balls never once letting them go. I took his cock in my right hand, starting to massage carefully with my fingertips.

I worked him down into my throat again, massaging with my tongue sucking, swallowing. He gasped and pressed my head down, pulling me up slightly by the hair. It wasn't rough, just directive. He was showing me exactly what to do this time. I felt his grip on my hair tighten. I sucked even harder. As he came, he pulled my head down on his cock. I stroked him with the tip of my tongue. He shot his load deep into my mouth. I swallowed his cum with each spurt and when he finished I licked my lips like it was the most delicious thing I ever tasted.

I laid my head on his groin next to his cock and flicked my tongue at it a few times. That's just a visual thing for him. I got off the floor and laid

on my side on the sofa, resting my head on his belly. I moved my fingers down between his thigh and balls and began to play with them as we watched TV. I'd pinch and pull every so often. I was in control. From here, I can restart a fuck session, I can fall asleep, watch TV, finger his buttohole. You name it.

This was a medium length blow job. Longer ones involve playing with his balls and playing with ass. Shorter ones would be just dropping down in front of him to my knees, pulling down his zipped and sucking him off intensely for ten minutes. This one every guys fantasizes about. Never fails. No matter how long you do it for, do it often and he'll never stray.
